

GENDER PAY GAP REPORT
2017-2018

Centralus
EMPLOYEE ENGAGEMENT CONSULTANCY

The new UK Gender Pay Gap Regulations of April 2017, require any organisation with 250 or more employees in the UK to report and publish their Gender Pay Gap and Gender Bonus Gap. The Gender Pay Gap is the difference between the average earnings of men and women, expressed relative to men's earnings. Companies also have to report the proportion of men and women receiving a bonus payment and the proportion of men and women in each pay quartile.

HERE AT CENTRALUS, AS WE STRIVE FOR EQUALITY OF OPPORTUNITY AND VALUE DIVERSITY, WE ARE APPLAUDING UK GOVERNMENT'S COMMITMENT TO INCLUSION AND FAIRNESS, ALL PART OF OUR CORE VALUES. WE ARE ALSO PROUD TO SEE THAT THE SAME VALUES ARE SHARED BY OUR CLIENTS.

“The Gender Pay Gap is a measure of the difference between the average hourly earnings of men and women and should not be confused with Unequal Pay, which is the unlawful practice of men and women not receiving equivalent remuneration for performing equivalent work.”

We have
7
legal entities
in the UK that employ over

250
people

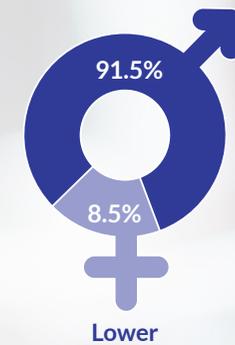

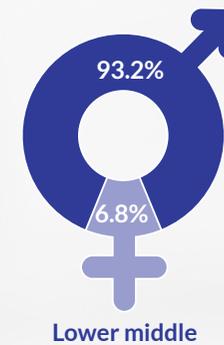

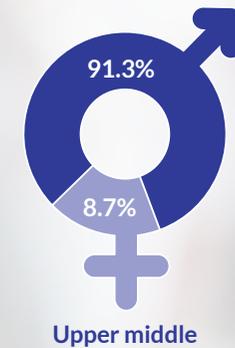

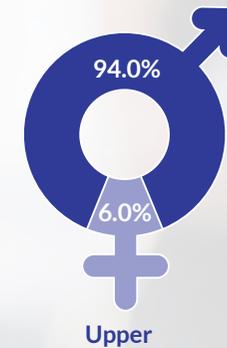

The data we are required to report for each separate entity is detailed on the pages to follow.

LODGE SECURITY PAY LIMITED

HOURLY PAY DIFFERNECE	Mean	Median

Chairman of Centralus Group

Explanations for Gender Gap Report:

The mean gender pay gap is the difference between the average of men's and women's hourly rate pay.

The median gender pay gap is the difference between the midpoints in the ranges of men's and women's hourly rate pay.

The mean gender bonus gap is the difference between the average of men's and women's bonus pay.

The median gender bonus gap is the difference between the midpoints in the ranges of men's and women's bonus pay.

The bonus proportions are the proportions of men and women who received paid bonus pay during the 2017-2018 financial year.

The quartile pay bands measure the proportions of men and women in the lower, lower middle, upper middle and upper quartile pay bands.
